MERIDIAN BRIDGE TO BE MOVED SHORT DISTANCE WEST FOR MORE SAFETY

It has been announced by the Alberta Government that it intends to move the Battle river bridge located on the Meridian to a point a short distance west of the present location.

Dame Rumour has been busy during the past few weeks as to what was going to be done in this matter. Some were telling how the bridge was to be removed entirely, others had different versions. The councils of both Merton and Ribstone municipal districts have been in correspondence with the Alberta government and finally the government has made its decision.

The Meridian bridge was erected in 1906 and the locating engineers followed their instructions by placing the bridge as nearly as possible on the Meridian line. During the years that have followed the faults of this location have been made apparent by the natural erosive action of the Battle river in two points.

The north bank has been cut away by ice and water, necessitating some expensive, and barely efficient, protective engineering work. On the south side the approach has been almost washed away, and it is only a question of time before the river changes its course—leaving the bridge to lead to a small island.

By moving the bridge entirely to a point some hundred or so yards west and a similar distance south these difficulties will be entirely overcome. This is what the government has announced its intention of doing, we have been informed by the reeve and secretary of Merton.

EXPORTS OF MEATS AND CATTLE

In the pre-war year of 1913 \$100,484. In 1924 the exports of total value of \$5,405,755, in 1924 they were \$24,434,270. Our export of bacon in 1913 amounted to \$4,274,824 and of pork to \$100,484. In 1924 the exports of bacon in value were \$19,991,636 and of pork \$2,169,756. Of live cattle in 1913 we exported 193,714 head valued at \$7,236,535 and in 1924, 183,242 head valued at \$12,622,863. It will be noticed that while the number of cattle exported in 1913 was over 10,000 less than in 1924 the value in the showing that in pre-war year the cattle commanded only a trifle over \$37.36 per head while in 1924 they were worth \$68.89 per head. In 1913 the exports in 1924 they were 79,435 valued at \$8,402,378.

Trade your eggs at Sakers and get cash.

International Council of Women

In connection with the Quinquennial Conference in Washington, May 4th to 14th, sixty-five delegates from Great Britain and Europe of the above organization sailed on the Canadian Pacific S.S. Montcalm from Liverpool this month. Delegates from South Africa, New Zealand and Australia are also included. Among those from Great Britain are Lady Trustram Eve, Lady Salvesen, Lady Nott Bower, Lady Adam Smith, Lady Egerton and Mrs. George Cadbury.

The French delegates sailed about the same time on the Canadian Pacific S.S. Marburn from Cherbourg and are shown in the photograph from left to right, standing: Mme Heimann Founder of the French Association for

Blinded Soldiers; Mme Odette Arnaud, the well known painter and Mme Annette Fougeol of the transmission service of emigration. From left to right, sitting: Mme Emilie Fougeol, Mme Lucienne Bernheim, Mme Pichon-Landry, Mme Avril de Sainte Croix, President of the French Association, Member of the Legion of Honour and delegate to the League of Nations; Mme Legrand, widow of the well-known French general; and Mme Eyraud, Chevalier of the Legion of Honour and General Inspector of Public Instruction.

These ladies will be given official reception in Canada and will visit Quebec, Montreal, Ottawa, Toronto, Hamilton and Niagara Falls as guests of the Local Councils prior to attending the conference in Washington.

FOURTH ANNUAL TOUR TO THE PACIFIC COAST

Special Train From Winnipeg
via Canadian National Railways.
Entertainment Provided for
at Various Points of Interest En Route

PERSONALLY CONDUCTED

Personally conducted tours offer the best opportunity for familiarizing oneself with the country traversed. This applies to our own country as well as to the older settled countries of Europe. Canadian National Railways has, for many years, commencing immediately after the close of school for the summer holidays, conducted special parties to the Pacific Coast via Prince Rupert. The tour this year which will be the fourth will again commence at Winnipeg from which point a special train of modern sleeping car equipment, dining car and radio observation car will leave July 6th. After stopping at various places of interest, the train will arrive at Prince Rupert on July 11th. At this later point, the party will embark on a palatial steamship for a cruise of 550 miles through the famous "Inside Passage" to Vancouver. While the tour terminates at Vancouver, those who desire to make a trip to Victoria, may have their tickets read "Victoria" as their destination without any additional cost.

This tour as an outing that appeals strongly to teachers as well as to professional men, and business men and women.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour, including the cost, choice of routes returning, etc.

BANK OF MONTREAL OFFICIAL CROP REPORT

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches. The Branch Managers have complete and intimate knowledge of each local situation and are in close touch with Crop conditions in all sections of the districts mentioned.

General. In the Prairie Provinces seeding has been started earlier than usual, and the seed bed generally is in excellent condition. The season is three weeks earlier than usual in Ontario and earlier than the average in Eastern Quebec and the Maritime Provinces. British Columbia the season is about two weeks late.

PRAIRIE PROVINCES

Edmonton District: Seeding somewhat delayed owing to recent heavy rains, but seed bed in excellent condition. Calgary (Continued on page six)

SCOTT EXPERIMENTAL STATION FARM NOTES

Moisture

The chief controlling factor in crop production in north western Saskatchewan is moisture. Although there is no known way of controlling the supply of moisture or precipitation it is interesting to compare average records of previous years with the present conditions.

The total snow-fall recorded at the Scott Experimental Station for the winter 1924-25 was forty-seven and eight tenths inches while the average for the four previous years was thirty-one and nine tenths inches, a difference of approximately 16 inches.

The rainfall received in 1925 previous to April 29 (the time of writing) is one and four-tenths inches while the average for the four previous years is only forty-three one hundredths (43-100) of an inch. A difference of approximately one inch.

Ten inches of average snow is considered equal to about 1 inch of water, hence with 16 inches more snow and one inch more rain there was about 24 1/2 inches more water liberated on the land in the spring of 1925 previous to April 29 than the average for the previous four years before May 1st.

The snowfall during the winter 1923-24 was 41 inches. Nearly

THE DAIRY POOL

The membership in the dairy pool is \$2.00. The term of the contract is for five years including all the milk or cream to the order of the pool, save such milk or cream as he uses for family purposes or the feeding of stock.

The pool is to market the milk or cream to the best advantage, and has the power to acquire and operate creameries and other such dairy plants or cold storage plants. The proceeds from the sale of all cream or milk or other products are to be divided in fund, the cheese fund, and the fluid milk fund. There will be deducted from these funds the cost of handling the products, including freight and express charges, etc., but not the freight or express from point of shipment to point of accepted delivery by the pool, which charges producer. Five per cent is to be deducted monthly from the amounts due the producers for a reserve fund. Initial payments will be made the 1st and 15th of each month next after delivery. The pool has the power to establish grades for the products they handle, subject to the Daيرmen's Act. The dairy pool will be managed by a Board of seven directors, representing the seven districts into which the province has been divided for the purposes of the pool.

"How are you this morning?"
"Not at all like myself."
"I congratulate you."

In a lawsuit it was necessary to call a negro cook as witness. The judge asked the usual questions before the oath was administered

"Do you know what will happen if you tell a lie?"
"Yes sah, Go to Hades, Burnum lony whayle."

"Quite so. And if you tell the truth?"

"We lose'm case, sahn," was his prompt reply.

Relic of Quebec's Fall to Return to Canada

THE SHIELD
The first of the Gates of QUEBEC
the time that a Conqueror was made of this CITY
by the English Sea and Land Forces
in the memorable Year 1759 under the Command of the Admiral
SAUNDERS and HOMES and the General
VOLFE HASTINGS JOHNSTON and MURRAY
which latter being Appointed by His British
GOVERNOR thereof made a present of this TROPHY
of War to this CORPORATION
He then was one of the JURAT

According to press despatches from London, Lord Willington, 1st Viscount Raton, who was scheduled to sail from Liverpool on April 9th by Canadian Pacific steamship "Montroyal" as special emissary from the Hastings Corporation to the Quebec City council, has postponed his visit for some time owing to the illness of Viscountess Willington.

His Lordship's official mission, which will be carried out when the Viscountess recovers, will be to return to the City of Quebec the shield which was taken from its gates when it was captured by General Wolfe in 1759 and which was presented to the Hastings Corporation by General Murray who was present on that memorable occasion.

Since that time the shield has hung over the door of the Council Chamber in the Town Hall at Hastings and Quebec has endeavored to obtain its return, for years in vain, but at last Hastings has relented.

Viscount Willington will be accompanied by his wife who before her marriage was the Hon. Marie Adelaide, daughter of 1st Baron Brassey, together with his son the Hon. Inigo Brassey Freeman-Thomas and his wife.

SCOTT EXPERIMENTAL STATION FARM NOTES

Moisture

(Continued from Page One)

seven inches less than during the past winter. The rain in 1924 previous to April 30 was only four one hundredths of one inch none of which was received during April and only one and eight tenths during May, June and July.

During the past ten years in northwestern Saskatchewan the yield of grain has not been in proportion to the total amount of precipitation for the year but the growing period has been more effective in producing high yields. However, the fact that spring moisture for 1925 has amounted to two and a half inches of water more than the average for four years is sufficient reason for optimism regarding the early part of the growing season.

If you want some good spuds go to Saker's.

A frenchwoman, on her arrival in England, would eat only such dishes as she was acquainted with. Being on one occasion pressed to partake of a dish which was new her she replied politely, "No thank you; I eat only my acquaintances."

MANY PLACED ON FARMS

Since March 15 of this year the Provincial Labor Bureaus have placed in farm vacancies more than 3,700 hands. The bulk of the orders for this farm labor came in during April. In the week of April 11, some 750 were placed, and the following week 830 were placed. The week of April 18 when over 1200 were placed, is a record for the service for spring operations, more vacancies being filled for that period than for any similar period in the spring season in the history of the service. The highest previous year was in 1924 when in the same week 879 hands were placed on farms.

The young married couple entered the furniture store.

"Husband (bashfully): "We want to look at a bedroom suite for our new home."

Salesman: "Yes sir. Do you want twin beds?"

Young wife (blushing): "Heavens no! Just a small cradle."

A Jew, whose son was very ill, on returning home one evening inquired of his wife: How's poor Moses, Rachel?"

"Very bad indeed, Isaac. He won't take any interest—"

"What?" broke in he husband.

"Won't take any interest? He must be dead."

EDITORIAL COMMENT

Dreamers have their place in the making of a community when their dreams are interpreted with the use of inspiration and perspiration. One night, about a century ago, Kleng Pearson, a Norwegian who had walked thousands of miles in North America, wearied with his tramping, slept on the open prairie and dreamt. In his dream he saw the wild prairie changed into a cultivated region teaming with all kind of grain and fruit most beautiful to behold! that splendid houses and barns stood all over the land, occupied by a rich and prosperous people; alongside the fields of waving grain large herds of cattle were feeding. Kleng interpreted this dream as a token from God Almighty that his countrymen should come out from their homeland in Norway and settle in this new land.

Such was the inspiration. History records that this stalwart Norwegian pioneer wended his way back to Norway and invested all his funds in the purchase of a small sloop, the "Restaurationen" (Restoration), and gathering a party of emigrants (men, women and children), from the Stavanger district; sailed for America on July 4th 1824. The first Norwegian emigration party to America of modern times. It is a noticeable coincidence that they should sail on the day set for the national celebration of their adopted country.

Then followed the perspiration. History records that this party and the many parties who followed their lead, faced undauntedly the many difficulties inseparable from the early pioneering life of that period (far more strenuous than those of to-day); and that by their efforts many districts in the States of New York, Illinois, Wisconsin and Minnesota became prosperous. Later the movement spread over larger areas and in time, Canada.

Now follows the celebration. This is taking the form of a Nore-American Centennial to be held at the Minnesota state fair grounds, June 7th to 14th. At this gathering the president of the United States, the premier of Canada, the premier of Norway and some royalty are expected to be present. Conventions of the Lutheran church will also be held. Altogether the event will be one well worthy of the attendance of Norwegians and the attention of those who recognize the value of stalwart faith and energy of the Norwegian settlers in America.

There is a grand inspiration in reading the history of the Norwegian settlers in America, and we would urge our readers to endeavour to become acquainted with their story. The tenacity with which they followed the inspiration of the leadership and ideals of Kleng Pearson; and their loyalty to the ideals of their church and citizenship throughout the past century, should encourage us to face our problems of to-day with no less a measure of faith and energy.

Canadian Bacon does not hold the highest place in the estimation of the British consumer. We may as well face the fact that the British consumer favors the Danish and Irish hams—these being, in his opinion, the best. He is a keen judge, and in matters that touch the palate he is not easily deceived.

From an advertisement in the Woolwich Independent of date of April 10th we learn that "popular public demand declares that either Danish or Irish (bacons) are first favorites." This statement has been supported by those who have recently returned from the Old Country.

It is rather disappointing after the years of educative propaganda that has been circulated, and after all the effort that has been made in this respect, that Canada should still be in the background in the production of a staple article so largely used as bacon. A product which Canada is prominently suited to raise profitably.

The advertisement in question quotes the following retail prices: All long lean back, per lb, 1s 11d; Loin is 10d; Prime rib, 1s 9d; Top Rib, 1s 8d. Prime collar and prime streaky, 1s 4d; Thin streaky 1s; Full cut Hock 9½d; Plank 8d. These prices show more clearly than any other words can describe the demand of the British consumer. They indicate the nature of the meat required and should be accepted as a guidance in selecting the breed of hog to raise for this market.

The methods of curing, employed by the Canadian packers, are not the most suitable for the British market—the best market in the world today.

Yes, sir! Canada has not got a good grip on the bacon market; and we are, one and all, the poorer by this failure.

Is your chimney safe? The chimney is often a source of danger from fire and many chimneys which are apparently in good order have been found to be faulty. Your own brick chimney may not be safe. Give it a careful inspection.

We were forcibly reminded of this the other day, when we learned that at least three chimneys in the district need rebuilding. One of these chimneys, in particular has an interesting record. It was built in the early days by a skilled bricklayer with cement bricks (the only ones available at that period). The cement bricks have proven quite unsuitable for this purpose and have been found to be crumbling down like clay. Further the woodpeckers apparently made this chimney a place for sharpening their beaks for they contributed towards the ruin of the structure by chipping out portions of both brickwork and cement. The chimney has been taken down and it was found to be rotten all the way, both within and without the building.

A fire originating from a faulty chimney often gains considerable headway before it is discovered; and is perhaps the hardest to get at and extinguish when discovered. It is infinitely more pleasant and certainly less costly to rebuild a faulty chimney than to replace a destroyed building.

NEW ARRANGEMENT

RE ARBOR DAY

Arbor Day will be celebrated this year on Monday, May 11 which date has been set by the Provincial Government. It has been the custom for schools throughout the province to observe this as a general holiday and the schools have been closed. Hon. Porin Baker, Minister of Education, holds the view that this defeats the objects for which Arbor Day was set aside, namely the planting of trees around the school grounds and generally Arbor Day may still be observed as a general holiday among the schools. Mr. Baker has urged that the schools carry on and observe the day for what it is was originally intended. He has stipulated that those schools which do this will receive the usual grant for a school day. When the schools close up for this day, as on other holidays, they do not receive the grant.

EXTEND TIME TO TRANSFER SETTLERS

Extension of time until the end of June has been granted on the arrangements between the railway companies and the Dominion and Provincial Governments with respect to the removal of settlers from the southeastern part of the province to other localities n are province. The extension has been granted on the understanding that all shipments will be concluded by June 30. Nearly 900 families have now been removed from that section of the province.

ALBERTA BEES

WINTER WELL

Winter loss among Alberta bees has been small, according to reports received by H. T. Luther of Lethbridge, secretary of the newly organized Alberta Bee Keepers Association. At the Experimental Station at Lethbridge the winter loss was 3½ per cent, while other members of the Association report under 10 per cent. The few heavier losses in all cases seem to be due to the beekeepers letting their bees go into the winter in poor condition. The Beekeepers Association executive are studying every phase of the business in the Province and are determined to lay a broad foundation for this industry in Alberta. Another meeting of the Association has been called to convene in the Board of Trade Rooms at Lethbridge at 8 p.m. Friday, May 1st, when a large number of those interested are expected to be in attendance.

SEASON'S FUR PRODUCTION

The total value of the raw fur production of Canada for the season 1923-24 was \$15,643,817. This amount represents the market value of the pelts of fur-bearing animals taken in Canada during the season, comprising pelts of animals taken by trappers and pelts of ranch-bred animals, the value of the latter constituting approximately five and a half per cent of the total value.

"It's no good trying to play bridge against Jim and Phyllis."
"Why not?"
"Oh, you know how good they are at holding hands."

CHAUVIN ATHLETIC

ASSOCIATION MEETING

An enthusiastic meeting of the Chauvin Athletic Association was held last Friday evening at which the annual report for last year was read and adopted. The following officers were then elected to carry on the work of the association for the ensuing year.

President: H. N. Freeman
Vice-President: A. E. Keith
Secretary: C. G. Dewar
Executive committee: F. Fahner; C. Stewart; C. G. Forryan; D. W. Parcells; C. C. McKechnie.
Baseball Committee: C. Stewart; F. Fahner; G. Reynolds.

Grounds Committee: A. E. Keith; G. M. Beattie; F. Fahner.
It was decided to hold the Chauvin sports Friday, July 3rd. A hearty vote of thanks was accorded the retiring officers.

Mr. "We simply must stop at this filling station and get some gas."
Mrs. "I tell you I won't stop at this one. There's a much nicer looking one further down the road."

BANK OF MONTREAL**OFFICIAL CROP REPORT**

Continued from front page.)
District: From 10 to 50 per cent seeding has been done; moisture ample. Lethbridge District: Recent heavy rains delayed operations, but seeding is now progressing under favourable conditions; moisture ample. In irrigated districts in the south 6,000 acres are ready for sugar beets. Regina District: Cold showery weather retarded initial seeding operations in the south, but seeding is now well under way under excellent conditions. Spring ploughing is well advanced. There is no material change in

wheat acreage although indications point to a slight increase. Saskatoon District: Seeding has been considerably delayed by rains and is not likely to be generally a slight decrease in acreage. Winnipeg District: Wheat seeding is well under way, varying from 5 to 90 per cent in different localities; moisture ample. The early spring will permit the preparation of land which was hindered by bad weather last Autumn. Indications are that acreage in wheat will be about the same with a probable increase in coarse grains.

"My dear Mrs. Croesus, may I put your name down for tickets to Prof. Pundit's course of lectures on Buddhism?"

"By all means. You know how passionately fond of flowers I am

Mabel Reinhart, 94; 50; 58; 65; 50; 90.
Margaret Mitchell, 95; 40; 51; 43; ... 85.
Albert Mitchell, 78; 30; 20; 26; ... 70.

GRADE III

Ernest Stevens, 81; ...; 36; ...; 70.
Ernest Roulston, 61; 25; 64; ... 90; 80.
Elmor Reinhart, 60; 35; 58; ...; 80; 85.

GRADE II

Clinton Stevens.
Viola Reinhart
John Mitchell.

GRADE I

Harold Perry.

WORK OF PUBLIC**HEALTH NURSES**

Excellent work of the public health nurses maintained in various districts of Alberta by joint support of the provincial government and municipalities, is revealed in the annual report of the Nursing Branch of the Public Health Department of the Provincial Government for 1924.

During the year the public health nurses made inspections of 107 schools, with 3,012 inspections. Additional duties were given the nurses the past year in visiting nursing, and in this connection 100 calls were made.

The travelling child welfare clinics during the year held 23 clinics in rural districts, with an attendance of 276 babies and 249 pre-school children. The city clinics also had a very successful year. At the Edmonton clinic the total attendance for the year was 3,583 with 2,900 babies in attendance and 98 clinics held. The nurses made 6,058 visits. At the Calgary clinic 113 clinics were held, with a total attendance of 4,618, and 3,646 babies. The nurses made 2,847 visits. At the Medicine Hat clinic there were 1,303 in attendance during the year, and the nurses made 1,242 visits.

During the year the six district nurses who are established in remote districts for the benefit of the settlers, made 621 calls, with 607 consultations, attending 385 medical cases, 134 surgical cases and 35 abstrical cases.

The service recently established by the government of sending a fully qualified doctor and dentist to isolated districts periodically, resulted in a total number of examinations of 264 by the doctor, and 338 examinations by the dentist, with necessary treatment given in each case. This service has been greatly appreciated by isolated settlers.

During the year clothing and relief to the total of \$21,407.25 was supplied.

Speaking about "holding on." Consider the postage stamp. It sticks to one thing until it gets there.

**CANNED MEATS MUST BE
PREPARED THREE MONTHS
TO WIN PRIZE AT FAIR**

The ladies of the district are requested to take notice that entries of canned meats at the Chauvin Fair this August are required to have been prepared at least three months prior to their date of the Fair.

Full particulars of the prizes offered for Domestic Manufacturers are given in another column of this issue. It would be a good idea to save this list for future reference.

Have you cleaned up the year?

Lightning

With approaching warm weather we also have approaching Thunder Storms. If not properly protected your Radio Set and Buildings will be in danger ...

Protection

When a proper protecting device is used your antenna will act a protection rather than a source of danger

Now is the time to install a Lightning Arrestor or Switch

THE DAIRY POOL

Continued from front page)

pool is in the C.P.R. building at Edmonton, and the Secretary is Mr. R. A. Van Slyke. The Advantages expected to be derived from the pool are briefly the saving of 6 or 9 per cent on the price of butter fat for the producer by the elimination of canvassers and agents, a heavy reduction in railroad tolls, reduction in overhead costs, standardization and steady markets, establishment of a solid front for remedial legislation, storing in times of over-production, and the bringing of experts into the service of the producers.

Rev. H. T. Egedahl D.D. from Provost will conduct confirmation services together with Communion on Sunday the 10th of May at the residence of Mr. C. Kristianson at Roros. Services will commence at 11 a.m. All are welcome to take part.

CHANGE OF DATE

There will be no regular meeting of the directors of the Chauvin Agricultural Society on Saturday May 2nd, but a meeting will be held the 3rd Saturday in May—the 16th.

PROVINCE GETS SHARE OF FUNDS

The Alberta Government's share of the surplus funds of the former wheat board of the Dominion is \$112,000 a check for which amount has been received by the Provincial Treasury.

ALBERTA'S MUSICAL FESTIVAL

Alberta's Annual Musical Festival will be held this year at Lethbridge, from May 12 to 15, at which a large number of contestants are expected to be present.

"Still a bachelor?"

"Yes."

"Necessity or choice?"

"Both. My necessity, her choice."

GAME INTO VOGUE ON COAST MOVIES BRING NEW BEACH

'Harpooning sharks' is a new and exciting beach game which leading summer resorts are now advertising, thanks to the movies "Harpooning sharks" caught the attention of those who control popular beaches when Cecil B. DeMille introduced it as a feature of his new Paramount picture "Feet of Clay", part of which was filmed at Catalina Island.

The game is played with a padded target in the semblance of a floating shark, with concentric circles marked with various figures.

The players are girls in bathing suits carrying ribbon-tufted harpoons and mounted on forty-mile an-hour speedboats. As the crafts dash by the game is to stick the harpoons in a high score marking.

"Feet of Clay" was adapted from Margareta Tuttle's novel. The featured players include Rod La Roque, Vera Reynolds, Ricardo Cortez, Julia Payne, Theodore Kosloff, and Robert Edson "Feet of Clay" next Monday at the I.O.O.F. hall, Chauvin; and Edgerton on Tuesday.

GOOD PRICE FOR WOOL

Southern Alberta wool growers received an average of 34 cents a pound for the wool marketed through the Canadian Co-operative Wool Growers' in Toronto, according to an announcement made by the Lethbridge representative of the pool.

PREPARING TO EXTEND LINE

Preliminary work for the 20 mile extension of the Lacombe & Northwestern Railway is now being done. The surveys are now being done. The surveys are now being run and tie-cutting done, and contracts will be awarded shortly for the clearing and grading.

IMMIGRATION BRISK

Considerable immigration has taken place in Alberta within the past month, large numbers of settlers arriving chiefly from Britain and European countries. Many enquiries from prospective settlers are being received at the offices of the Provincial Publicity Commissioner, and by the federal offices. During one week recently more than twenty homesteads have been filed on at the local land office.

"What's the matter? Are you ill?"

"Rather. My head feels as if it was swimming."

"Better see a doctor. You must have water on the brain."

HOW SHE KNEW

A city-bred girl married a young farmer. As her husband came into the house one day she exclaimed—

"Oh, John, I found four duck's eggs among the two dozen you brought in this morning."

"Ducks' eggs?" said John.

"How do you know that they were ducks' eggs?"

"Why," she answered, "I put them in water and four of them floated."

Everyone lays a burden on the willing horse.

If you buy a bad thing you will soon buy again.

Teacher: "Now, children. Let us try to get through this lesson without one cross word."

Bright Scholar: "That would be a puzzle!"

LOCAL HAPPENINGS

Don't forget that the change in trains is now in effect.

Congratulations to Miss. Dorothy Smith. We learn that she will graduate as a fully qualified nurse at Saskatoon within a few days.

The next meeting of the Ribstone council will be held Saturday May 23rd at Chauvin.

Quick work on the part of Mr. O. Hawthorn, the local railroad agent saved seven passengers for Edmontoon Sunday evening from being stranded in Chauvin for one day. The flyer was under the new orders which do not provide for a stop at Chauvin. By getting the wires to the east warm we got the train stopped for the party.

Hot drying winds prevailed for two days last week, these being followed by light showers of rain. There is plenty of moisture in the well cultivated lands.

Reeve A. Carson and Secretary L. B. Nicholson journeyed to Edmontoon last Sunday on municipal business.

Big Ben Radiolite Alarm clocks—see the time in the dark, and keeps correct time both day and night. The Chauvin Pharmacy.

How is your stock of stationery? We do printing of letter-heads, statements, envelopes etc. Take stock of your needs and we will be pleased to quote you prices on anything you may need in this line.

The Chauvin Chronicle

Have you cleaned up your premises yet?

Mr. Henton of Oxville and party also journeyed to Edmontoon on Sunday to attend a legal trial which is being heard at Edmontoon. Mr. Henton being the plaintiff.

The Chauvin council has made a good start this year by filling in the weak spots of Second Ave opposite the livery barns.

Lawn tennis seems to be more popular than golf this season.

Saker's render another excellent service to the community by buying and selling eggs on grade. This is the only legitimate way to buy or sell eggs now and is the only candling outfit in the district. Get spot cash for your eggs.

Mr. E. C. Hass arrived in Chauvin Saturday evening 8-d intends to pay a prolonged visit. He looks well and has been prospering well. He recently met Mr. F. Holbrook and Mr. T. Laplante, and reports "that they and their families are getting on well and enjoying good health."

Real Clover Honey—pure as the bee makes it at Saker's.—Special until May 15th 10 lbs for \$1.85

BORN to Mr. and Mrs. R. W. Nelson, Saturday May 2nd, a son

Mrs. Hass, having received a phone message that her sister was ill, left for Edmontoon Sunday evening.

Mr. W. McCluskey has purchased a Chevrolet car from I. E. Collette.

The famous moving picture "Scaramouch" is coming to Chauvin on Monday, May 18th, and to Edgerton Tuesday, May 19th.

At Saker's it is only the prices that are cut. Quality and quantity remain the same.

Miss Swindlehurst and Miss Ayers, of Edgerton, were business visitors to Chauvin, Friday afternoon.

The Edinglassie congregation has given an unanimous vote in favor of continuing the present arrangements rather than entering the new United Church of Canada.

The Killarney congregation, by a vote of 9 to 2, decided to continue the present arrangements rather than enter the new United Church of Canada.

Snow whitened the ground in the LaPere district in the early The snow had all melted away by noon.

Save many hours of tiresome walking. Buy a harrow cart from I. E. Collette.

"She felt badly the way he cut her."

"Snob, eh?"

"No, barber."

"What does your father do, Johnny?"

"Ma says pa don't do anything he can get out of."
